## ENTRY

#2005 SIGN FILO

## DESCRIPTION

A salute to the ancient jewelry-making art of filigree—after which it's named—the elegant, Sign Filo chair bends thin metal wire of varying diameters into a sinuous closed volume. Apertures within the hand-hewn, galvanized wire structure lend an airy, almost ethereal feel—a delicacy which belies the chair's load-bearing capacity.

Available in glossy black chrome, gold, and rose gold, the Sign Filo represents jewelry for the home.

## PROJECT SPECS

H: 77.5" x W: 50" x Depth: 55" x Seat H: 49"

Structure and finish: The load-bearing structure is comprised of steel wire in different diameters, and available in a glossy galvanic finish in black chrome, gold and pink gold. The product is only for indoor use.

Accessories: Specially designed cushions, stuffed with polyurethane padding and polyester wadding. Covers are completely removable. Silk covers come in three colours matched to the structures.
